
Project Manager

Who We Are:

HAND Enterprise Solutions (“HAND”) - A Global Leading Service Provider of Enterprise IT Solutions.

Hand Enterprise Solutions was founded in 1996 in Shanghai, China and listed on Shenzhen Stock Exchange since 2011 (stock code: 300170). We are proud to state that we are the biggest IT solution provider in China and probably the most international one.

Key figures about HAND:

24+ YEARS OF	12,000+ EMPLOYEES	31,000+ IMPLEMENTATIONS	5000+ CUSTOMERS
------------------------	-----------------------------	-----------------------------------	---------------------------

Since 2007, HAND has set up subsidiaries in Japan, Singapore, the United States, India, and the Netherlands (European headquarter). HAND is able to provide local implementation and support to our clients in a global scale.

HAND Enterprise Solution Europe B.V. (“HAND Europe”) is situated centrally in Europe with its Head Office in Eindhoven, the Netherlands since 2019. The region is also known as “BrainPort” and regarded as the “European Silicon Valley”. Our primary focus will be on Chinese owned companies with their branches in Europe, and European companies that want to expand to Asia. We are leaning on extensive project/AMS experiences, trusting clients, global delivery capability, and massive experienced team. Meanwhile HAND Europe is a small, but fast-growing agile team with scale-up company spirit. Our culture is flexible and bold, European and Chinese, no non-sense culture.

We are not limited to any background, as long as you fit into the function and you are willing to be part of us.

What is the Work:

The Project Manager will be part of an international team that helps delivering the projects to our customers in Europe.

He or she will be the boots on the ground talking directly to the European customers guiding them in the chosen solution and take the lead for the implementation in Europe.

His or hers (local) knowledge and skills will be combined with the in depth technical and/or customer knowledge of various colleagues within the HAND team in China.

The work is an intersection of business, technology, and creativity.

- Act as the local Project Manager for European sites in close cooperation with HAND Project Manager in China
- Serving as a Liaison. Work with a variety of people. Talk to leaders in the local customer site to understand what the business wants to achieve and then explain objectives to the HAND team and provide instructions on how to go about creating what is desired
- Handle internal communication and administration
- Serve as primary contact for the customers’ counterparts
- Serve as an intermediary between the customer, local team Europe and the Development team in China
- Help in selecting the best solution for the customers’ needs
- Help in de pre-sales process to explain and present the chosen solution to the customer
- Overseeing development and implementation of programs
- Providing leadership and support to software development team
- Assist with solving problems when they arise
- Ensure the implementation of agreed architecture and infrastructure is done correctly
- Address concerns, ideas and suggestions
- Monitor systems to ensure they meet both user needs and business goals
- Help crafting and presenting pitches to the decision makers of customer together with the HAND team in China
- Represent the company in a professional manner and build good relationships with clients
- To advise Sales team on bid / no bid decisions based on technical and commercial considerations
